Dear _____

Thank you for your interest in BiosupportMD. More importantly, thank you for allowing us to help your patients achieve their health and wellness goals.

Our mission at BiosupportMD is to provide the highest-quality dietary supplements at the most affordable prices. It doesn't make sense to price a product out of reach of the average consumer because we feel that health and wellness should be within everyone's grasp.

We offer five products that are rich in bioflavonoids which support the immune system's own antioxidant and anti-inflammatory defenses. Flavonoids are found in the rind of citrus fruits, and contain diosmin and hesperidin which can provide health benefits through their antioxidant effects.

The flavonoids in Vein Formula, Lymphatic Formula and Hemorrhoid Formula contain the micronized purified flavonoid fraction (MPFF) of diosmin and hesperidin which are easily absorbed by the gastrointestinal tract and therefore, better transported into the bloodstream. MPFF has been recommended for patients with chronic venous insufficiency by numerous vascular societies and experts around the world.

Vein Formula and Lymphatic Formula focus primarily on venous and lymphatic issues, specifically chronic venous insufficiency as well as lymphedema and lipedema. Hemorrhoid Formula, which contains horse chestnut, targets issues such as bleeding, burning and pain in patients with hemorrhoids. Finally, Propolis Formula, which is an oral spray, contains Propolis, a natural resin produced by honey bees that supports the body's immune system.*

All of our capsules are made in FDA-registered facilities that are USP, GMP and NSF Certified which ensures the highest quality control, sanitary conditions and manufacturing processes. And, our latest product, Propolis Formula, is sustainably sourced from Brazilian honey bees which helps support the eco-system.

Please review the enclosed information sheets to learn more about BiosupportMD's dietary supplements. If you would like to sell these products in your office, or have us fill a prescription for the patient directly, please contact us. We would be happy to speak with you about how you can deliver top-quality supplements to your patients at an affordable price.

Thank you for your consideration,

The BiosupportMD Team

## Hear what other doctors are saying about BiosupportMD products!

"Vein Formula has helped many of my patients since I started utilizing it in my practice, and it's something we offer to all our patients who have venous insufficiency. I believe in it, I use it and it's something that all vein practices should have."

-- Dr. Charles Dietzek, Vascular Surgeon, Vein & Vascular Institute, Voorhees NJ

"I have to tell you that patients are having amazing results with Vein Formula and Lymphatic Formula. In fact, I recently posted a picture of one of my patient's dramatic reduction in lymphedema on social media because she was so happy with the improvements."

-- Dev Batra, MD, Dallas Vein Institute, Dallas TX

"I can honestly say that Vein Formula is the first supplement in which patients have seen an improvement in their edema and the way their legs feel. And for our patients with hemorrhoids, Hemorrhoid Formula has significantly reduced their bleeding. I feel there is an impact that can be made by using these supplements."

-- Dr. Ken Osorio, Advanced Vein Center, Mesa AZ
